

SEAT CHECK SATURDAY CAR SEAT CHECK AND SAFETY EVENT!

**Join us in the Target Parking Lot on Bald Hill Road
from 10a-2p on September 23rd!**

At the end of every September, NHTSA and safety advocates from community organizations and law enforcement across the country come together to educate on the importance of Child Passenger Safety. This year, national CPS week is September 17th-23rd, with the nationally recognized Seat Check Saturday happening on September 23rd. Join us that Saturday at the Target parking lot on Bald Hill Road in Warwick from 10am-2pm to have your child safety seat checked for proper fit and installation. Seat Checks will be conducted by certified Child Passenger Safety Technicians. The Rhode Island Department of Transportation's Office on Highway Safety and Safe Kids RI are happy to be partnering together on this safety-oriented event to ensure a safer riding experience for all children. If you are a technician and can help out at the event, please RSVP your attendance to Michael Chappell whose email is provided here.

Child Passenger
Safety Technicians
will need access to
your Vehicle's
Owner's Manual

Each Seat Check
should take around
20-30 minutes!
